

COMPANY PROFILE

IT'S MADE IN ITALY

1975
2025
50 YEARS
of continuous
evolution

WE VALUE WHAT REALLY MATTERS. WATER.

IMPROVING WATER: that's what we do, that's what we are committed to.

We develop water filtration and water treatment systems for domestic, commercial and industrial use, constantly seeking innovative solutions to improve water quality, and enrich everyone's lives.

*Quality and care guide our decisions today and tomorrow.
Potential is what we strive to realize every day.
Success is the effectiveness of our work.*

We are dedicated to the development and design of solutions to water challenges, with a unique Italian style. This deep passion has enabled us to obtain patents and international certifications for our products, renowned for their ease of use and reliability.

Aware of our responsibility to the environment, we are committed to operating with the utmost respect for the ecological world. We use production processes designed to save energy, develop and implement technologies that reduce consumption, use highly recyclable plastics and promote responsible use of water resources through dedicated communication.

Atlas Filtri, since 1975:
*we are committed to providing solutions that improve water,
evolving while remaining true to ourselves.*

COMPANY STRUCTURE

ATLAS FILTRI
HOLDING

ATLAS FILTRI

ATLAS FILTRI **NORTH AMERICA**

branch for the American and
Canadian markets

Hydro-Flow Filtration Systems

Production and distribution site for the
West Coast

ATLAS FILTRI **FAR EAST**

branch for the Asian and Far East market

DESE PLAST
production site
for the injection
molding of
thermoplastic
materials.

COMPANY MILESTONES

1975 - 1985

1975 ATLAS FILTRI was founded as a trading company for dosing system, water components and system for water treatment.

1985 Started the production of its first water filters.

1990 - 2000

1992 ATLAS FILTRI changed ownership, becoming part of the Costantini's family.

1996 ATLAS FILTRI ITALIA was founded, a partner company, created for the Italian market and owned by the site Moro's family.

1997 Inauguration of the new HQ and production site.

2000 - 2010

2005 the acquisition of the company: KOSMED led to the subsequent establishment of the ATLAS FILTRI ENGINEERING the division specialized in plants and solutions for the industrial and civil sectors.

2011 - 2020

2015 new HQ is ready!

2016 opening of two new branches: ATLAS FILTRI NORTH AMERICA new branch in Connecticut USA and ATLAS FILTRI FAR EAST new branch in Shanghai, China.

2018 Green light for the new generation in the management of the company.

2021 - YTD

2021 Construction of a new two story warehouse for product assembly.

2023 start of production in USA.

2024 ESG program and strategy started.

2024 Acquisition of Dese Plant and Hydro-Flow Filtration Systems.

1975
2025
50 YEARS
of continuous
evolution

IMPROVING WATER

Improving water quality and safety, raising awareness, improving lives, and protecting the planet through sustainable water initiatives.

COMPANY PILLARS

COMMITMENT TO INNOVATION

Driving business excellence through continuous innovation in water-centric sustainability, using emerging technologies and practices to achieve environmental and operational goals.

WATER: THE ESSENCE OF LIFE

Empowering global access to clean, safe water through sustainable management and community engagement, powered by innovation and education, for a healthier planet and a meaningful global impact. Together, we aim to leave an imprint in the world, one drop at a time.

SUCCESS NUMBERS - THE COMPANY

90% of the products
are exported.

Presence in more
than **100 countries**
worldwide.

More than **200**
specialized employees.

More than **300**
distribution partners
worldwide.

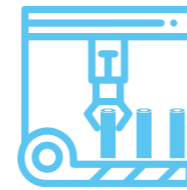

More than **3.000**
customers globally.

More than **23.000 m²**
for offices, production
and logistics.

1975
2025
50 YEARS
of continuous
evolution

SUCCESS NUMBERS - PRODUCTION

30 robots
for cartridge
manufacturing.

Production activities
24 hours / day
5 days/week.

**40 injection molding
machines** for producing
filter housings, heads,
bowls and components.

**280 tons of
polypropylene** used
per year.

**520 tons of reinforced
polypropylene**
used per year.

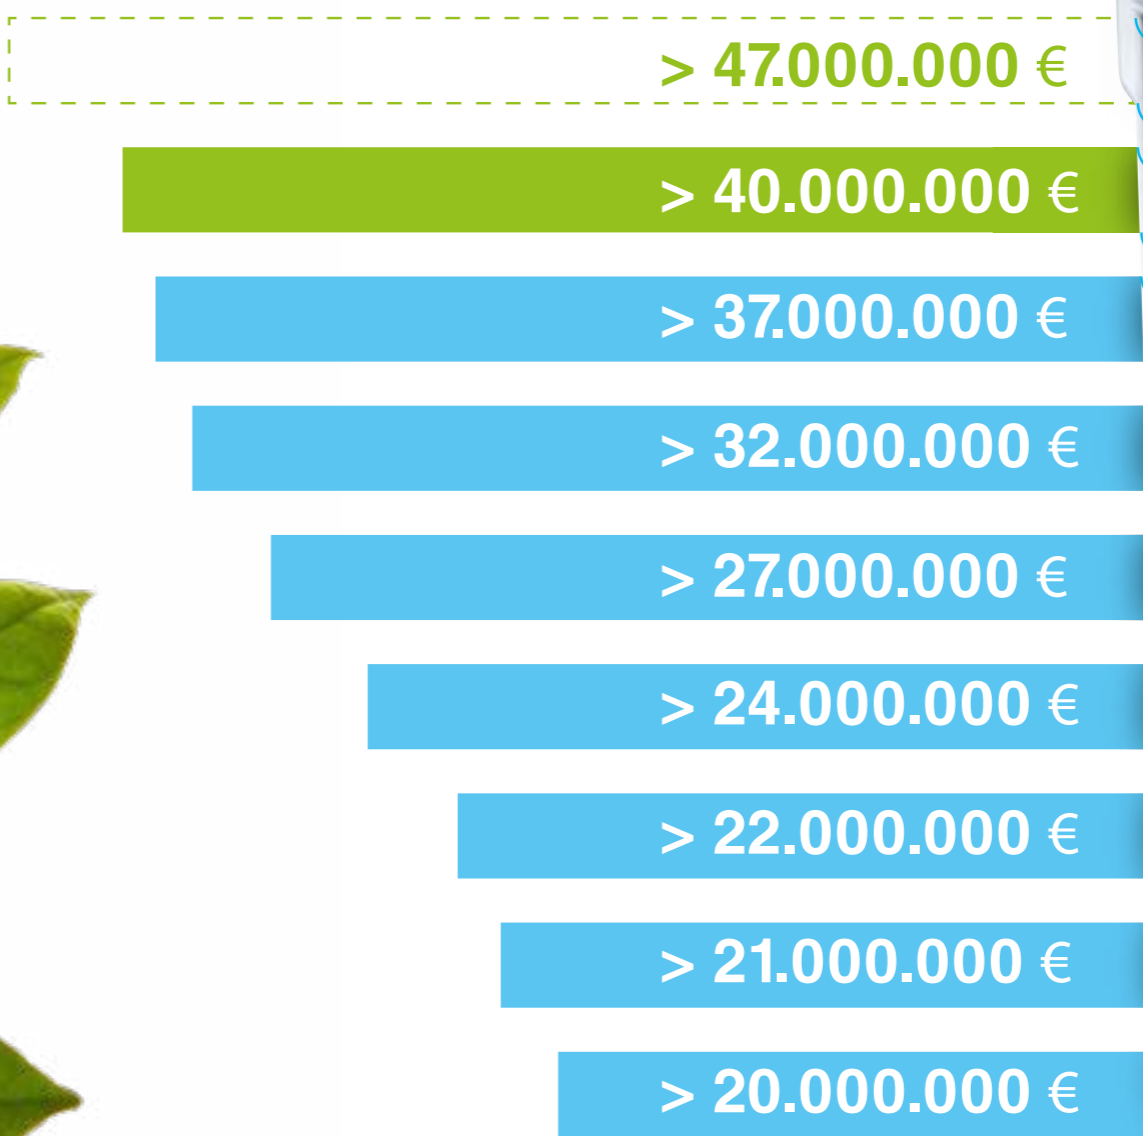

More than **600
tons of PET** used
per year.

**20 tons of regenerated
polypropylene**
used per year.

FILTER HOUSINGS RANGE

PLUS 3P

Housings for cartridge heights of 5", 7", 10" and 20".

MIGNON

Single and Duplex housings with reduced dimensions.

PP 3P

For water with non-neutral pH and for other liquids.

K DP

Designed to withstand working pressures up to 10 bar.

FX AF / XX

Designed to work at high pressures and high temperatures.

DP

DP is a full range of housings for cartridge height at 5", 7", 10" and 20".

DP DS

housings with 360° rotational connection group.

DP BIG

Housings designed to fit "BIG" filter cartridges with outer diameter (OD) 4.5".

DP BIG F

Filter housings with metal frame kit.

HYDROPUL

Self-cleaning filters.

HYDRA MINI

Self-cleaning filters.

HYDRA

Self-cleaning filters with innovative solutions for the self-cleaning operation.

HYDRA DS

Self-cleaning filters with 360° rotational connection group.

HYDRA DUO/TRIO

Multi-stage filters with self-cleaning pre-filter.

1975
2025
50 YEARS
of continuous
evolution

FILTER HOUSINGS RANGE

HYDRA RAINMASTER
Designed for water treatment of:
rain / well / mains / ho.re.ca.

HYDRA BIG
Self-cleaning filters.

HYDRA DUO / TRIO BIG
Multi-stage filters with self-cleaning pre-filter.

HYDRA RAINMASTER BIG
Designed for water treatment of:
rain / well / mains / ho.re.ca

BIG F PRO
Two-stage filtration system with UV treatment.

HERO BAG FILTER
Designed for fine and coarse sediment filtration.

OASIS SANIC
RO under sink, with antimicrobial technology.

NEXT
RO under sink direct flow, no tank.

SCALE ARMOR
complete solutions with scale prevention technology.

DOSAPLUS
Proportional dosing system with polyphosphate.

DOSAPROP
Proportional dosing system with polyphosphate.

DOSAFOS
Non proportional dosing system.

REVERSE OSMOSIS SYSTEMS

Atlas Filtri offers Standard RO units from 40 l/h to 2500 l/h, as well as customized RO units and plants based on specific demand, up to 50000 l/h. Models applicable for brackish water are available, as well as single-stage RO units and two-stage RO units for bi-desalination designed for use in several industrial sectors and for any use requiring high purity water.

ASSOCIATION

AQUA40ITALIA

A member of Aqua Europa, bringing together correlated industries and individuals and giving them access to national bodies and regulatory authorities involved in water quality control.

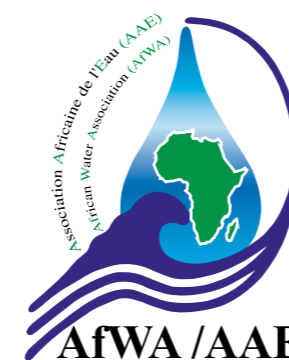

MEMBER

US-based organization representing the water industry around the world, involved in r&d and in product certification.

“International Water Association” bringing together experts, researchers and industry, constituting the most extensive pool of knowledge in the industry.

“African Water Association” for the development of water awareness, availability and quality in Africa, bringing together governments, managers, researchers and industry.
